

THE FISHER DIFFERENCE...

What makes our hose reels genuine? Fisher hose reels are the trusted choice for customers around the world because of their durability. Our Hose Reels are available with the following mounting options: Ceiling, Wall, and Under Counter. Fisher Hose Reels are available in Powder Coated Steel (Café Style) or in Stainless Steel (Industrial Style). Each Fisher Hose Reel offers these premium features:

CAFÉ STYLE

- **SWIVEL**

Machined from solid brass, the 90° full-flow NPT swivel allows for simple seal maintenance, fast and easy hose installation. No need to remove the reel from its mount.

- **CARTRIDGE MOTOR**

The lubricated and enclosed cartridge-style motor is easily removable for safe and convenient maintenance.

- **CNC SPUN DISCS**

Heavy duty CNC robotically spun and ribbed discs with rolled edges for greater strength, durability, hose protection and operator safety.

- **1/4" STEEL BASE**

Sturdy single pedestal design with solid one-piece stainless steel base and support post, without welds, for maximum stability. Exclusive Super Hub™ dual axle support system.

- **ENCLOSED DESIGN**

Sturdy enclosed reel for aesthetic purposes and greater hose protection. Heavy gauge steel 3-piece casing with adjustable hose roller guide.

- **3-PLY AIRCRAFT HYDRAULIC HOSE**

Last three times longer than competitive hoses.

- **PRO SPRAY VALVE:**

A shower head that produces up to 2.15 GPM and is guaranteed for 1 million cycles. NOT SUITABLE for removing food residue from food service items before cleaning them in commercial dishwashing or ware washing equipment.

- **UTILITY SPRAY VALVE**

A showerhead valve delivers fast water flow for a variety of uses, like washing down equipment or cleaning the facility. Showerhead produces 2.15 gpm and is guaranteed 1 million cycles. Comes with an angled head for increased comfort during use.

- **OTHER FEATURES INCLUDE**

Long lasting, chip resistant and rust inhibiting CPC powder coat finish, multi-position lock ratchet mechanism, and lubricated precision bearings.

INDUSTRIAL DUTY STYLE

- **SWIVEL**

Non-corrosive external fluid path machined from high quality stainless steel with 90° full-flow NPT swivel inlet.

- **CARTRIDGE MOTOR**

Electro-polished stainless steel lubricated and enclosed cartridge-style motor is easily removable for safe and convenient maintenance.

- **CNC SPUN DISCS**

Heavy duty CNC robotically spun and ribbed discs with rolled edges for greater strength, durability, hose protection and operator safety.

- **1/4" STEEL BASE**

Sturdy single pedestal design with solid one-piece stainless steel base and support post, without welds, for maximum stability.

- **3-PLY AIRCRAFT HYDRAULIC HOSE**

Last three times longer than competitive hoses.

When you choose Fisher Hose Reels from the start, you're trusting a brand that delivers real value with reliable, high-quality components designed to outlast cheaper alternatives. Instead of struggling with traditional hoses or mops and buckets, Fisher Hose Reels offer a more convenient, safer method for rinsing out equipment, washing down floors and cleaning heavy industrial debris. Fisher Reel Rinse Units make water conveniently available in all areas of the kitchen.

3 STEPS TO THE PERFECT FISHER SOLUTION!

PREFERENCE:

STEP 1 STYLE

Café or
Industrial Duty

STEP 2 SERIES

Open Reels or
Closed Reels

STEP 3 MATERIAL

Powder Coated Steel
or Stainless Steel

CAFÉ STYLE

Café styles are available as an open reel or closed reel. They are available in either powder coated steel or stainless steel. Powder coated steel provides long-lasting durability and corrosion resistance. The stainless steel finish and deteriorating-resistant components offer the maximum protection from premature corrosion. Reel Rinse models come standard with ratchet locks and easy tension adjustments. Furnished with a $\frac{3}{8}$ " ID hose rated at 300 PSI, and 160°F water temperature. Water inlet is a $\frac{3}{8}$ " Male NPT.

29851

White Closed Reel Wall Mount 30' of $\frac{3}{8}$ " Hose, Pro Spray Valve
Can be modified for ceiling mount.

32027

White Closed Reel Ceiling Mount 30' of $\frac{3}{8}$ " Hose, Pro Spray Valve
Can be modified to wall mount.

29801

White Open Reel Wall Mount 30' of $\frac{3}{8}$ " Hose, Pro Spray Valve
Can be modified for ceiling mount.

75222

Stainless Steel Closed Reel Ceiling Mount 30' of $\frac{3}{8}$ " Hose, Pro Spray Valve
Can be modified to wall mount.

75221

Stainless Steel Closed Reel Wall Mount 30' of $\frac{3}{8}$ " Hose, Pro Spray Valve
Can be modified for ceiling mount.

81345

White Closed Reel Ceiling Mount, 30' of $\frac{3}{8}$ " Hose, Utility Spray Valve,
Can be modified to wall mount.

29841

White Open Reel Under Counter 20' of $\frac{3}{8}$ " Hose, Utility Spray Valve

29662

White Open Reel Under Counter, 20' of $\frac{3}{8}$ " Hose, Pro Spray Valve

INDUSTRIAL DUTY STYLE

Industrial Duty styles are only available with open reels. With all stainless steel construction, they come standard with ratchet locks and easy tension adjustments. Furnished with $\frac{1}{2}$ " ID hose rated at 300 PSI and 160°F water temperature. Water inlet is $\frac{1}{2}$ " Female NPT.

75395

Stainless Steel Open Reel Wall Mount 50' of $\frac{1}{2}$ " Hose, Pro Spray Valve.
Can be modified to ceiling mount.

75397

Stainless Steel Open Reel Wall Mount 50' of $\frac{1}{2}$ " Hose, Spray Gun.
Can be modified to ceiling mount.

OPEN OR CLOSED?

Open reels allow for visibility and easy access for cleaning. Closed reels keep everything out of sight. This is purely client preference, giving you the flexibility to choose what's best for your facility.

POWDER COATED STEEL OR STAINLESS STEEL?

When choosing between powder coated steel and stainless steel, consider the environment. For example, environments with high humidity or high salt levels, such as those found in coastal areas or on cruise ships, make corrosion resistant stainless steel the ideal choice. Our powder coated steel units are a less expensive alternative which still provide long lasting durability.

WITH FISHER MANUFACTURING THERE ARE ALWAYS MORE OPTIONS TO CHOOSE FROM!

Simplify installations with Fisher's uniquely designed Reel Rinse Control Unit which combines all the necessary components into one complete system. Control valves and gauges are completely enclosed within a stainless steel cabinet with only three connections giving the operator total control and it is tamper resistant.

Model 1801

Model 29475

Fisher Manufacturing Reel Rinse Units include all necessary installation components. This Kit is ideal for re-modeling and retro fitting Units where the piping required is exposed on the wall. This kit consists of check valves, shut off and mixing valves, and an anti-spill pressure type vacuum breaker.

This kit is ideal for new construction where the piping required for Reel Rinse Units is concealed within the wall. This kit consists of check valves, shut off and mixing valves, and an anti-spill pressure type vacuum breaker.

Model 28266

It's all part of our commitment to helping you create a highly functional, dependable hose reel system you can count on for years to come!
